S U M M A R Y

Informatics Engineering graduate with a strong passion for Web Development, Data Science, and Data Analysis. I am adept at critical thinking, collaborative teamwork from diverse backgrounds, and committed to embracing new challenges. As an enthusiastic web developer, I build visually captivating and seamlessly functional websites, leveraging expertise in both front-end and robust backend systems. My experience extends to building machine learning models and data visualization tools to solve real-world problems, with a keen interest in data-driven decision making and AI solutions.

E X P E R I E N C E

AI Engineer PT. Sekawan Media ↗ Internship	04/2025 – 08/2025
- Developed an end-to-end AI-powered object detection system, utilizing computer vision and deep learning. - Performed data annotation and preprocessing using Roboflow, ensuring dataset quality and structure for training. - Trained object detection models with custom image datasets using transfer learning techniques. - Built RESTful API endpoints using FastAPI to serve prediction results, enabling seamless integration into frontend or mobile platforms. - Improved model deployment reliability and response time, ensuring usability for self-screening applications. - Focused on enhancing model accuracy by iteratively evaluating predictions and retraining with additional datasets.	
Backend Developer PT. DKWB (Dkenzie Wastu Baskara) ↗ Internship	04/2024 - 07/2024
- Redesigned PT. DKWB's website to support automated order processing and enable customers to check shipping rates before placing orders. - Enhanced the admin dashboard to allow full control over driver management, including CRUD operations, driver data validation, and QR code-based downloads. - Implemented a driver profile update system, allowing drivers to submit profile update requests for admin approvals.	
Leader Weboender Community	09/2023 - 08/2024
Led the community, coordinating all work programs and activities within the community, overseeing the planning, execution, and development of initiatives to promote web development skills including the public bootcamp.	
Staff Weboender Community	09/2022 - 09/2023
Played a key role in a public web development bootcamp, the community's signature program, helping participants build foundational skills in web development.	
Division Staff Intellectual Division HIMATIF "ENCODER"	07/2022 - 11/2022
Actively served as a staff member in the intellectual division, participating in the planning and execution of several key events, including orientation (ospek), contributing to the development and engagement of new students.	

EDUCATION

Informatics Engineering Maulana Malik Ibrahim State Islamic University – Bachelor of Informatics Engineering GPA 3.78	08/2021 – 06/2025
Software Engineering SMK N 2 SURAKARTA - High School Diploma	07/2018 - 05/2021

CERTIFICATES

Code Generation and Optimization Using IBM Granite ↗ IBM Skillsbuild	06/2025 - Present
Data Science Methodology ↗ Cognitive Class	05/2024 - Present
Machine Learning with Python ↗ Cognitive Class	03/2024 - Present
Data Analysis with Python ↗ Cognitive Class	03/2024 - Present
Python 101 for Data Science ↗ Cognitive Class	02/2024 - Present
Memulai Pemrograman dengan Python ↗ Dicoding Indonesia	10/2024 - 10/2027
Belajar Dasar Visualisasi Data ↗ Dicoding Indonesia	12/2023 - 12/2026

SKILLS

Machine Learning	Basic	HTML5	Advanced
Python	Intermediate	CSS3	Advanced
Computer Vision Tech	Basic	PHP	Advanced
Git	Basic	Javascript	Basic
MySQL	Intermediate	Problem Solving	Intermediate
Laravel	Basic	Time Management	Advanced
Flutter	Basic	Teamwork	Advanced
Java	Basic	Microsoft Office	Advanced

LANGUAGES

Arabic	Basic	English	Intermediate
